MOQ:	100
Size:	See Artwork Requirements
Available Thickness:	4.5mm
Branding Area:	Within dimensions
Branding Method:	Dye Sublimation
Material:	Textile top with a rubber base & a gel filled wristrest
Made In:	UK
PDF Proof:	24-48 Hours
Express Service	Not Available
Available:	
Printed Proof Leadtime:	3 Working days
Leadtime:	10 Working days from proof approval
Colour:	N/A
Weight:	283g

Packaging and Other Information

No Per Carton:	34
Packaging Details:	445 x 320 x 305mm
Carton Weight:	8Kg
Standard Packaging:	Self Seal Bag
Alternative Packaging:	N/A

Recommendations and Limitations

Gel filled wristrest (blue or black) is supplied unattached to the mat to allow the end user to position the wristrest on the mat where it best suits them.

Ideal For: Postal Campaigns, IT Companies, Educational Organisations, Pharmaceutical, Recruitment

Textile MatRest™

Sizes available: 258mm x 210mm. There is a tolerance of +/- 5mm because of the nature of the mats construction.

Print Area and Bleed: Please add 5mm bleed all the way around the outside of the design. Avoid placing text within a minimum of 5mm of the edge of the mat. Note that the radius corners on this product are quite large and this should be taken into account when positioning the text on the design. If reversing text out of a solid background: Dye sub print gives more problems with bleed so avoid fine typefaces. Set text in bold. Minimum point size 12.

Tints: Minimum of 10% difference between tint values to give a visual contrast. Printable range of 20% to 80%.

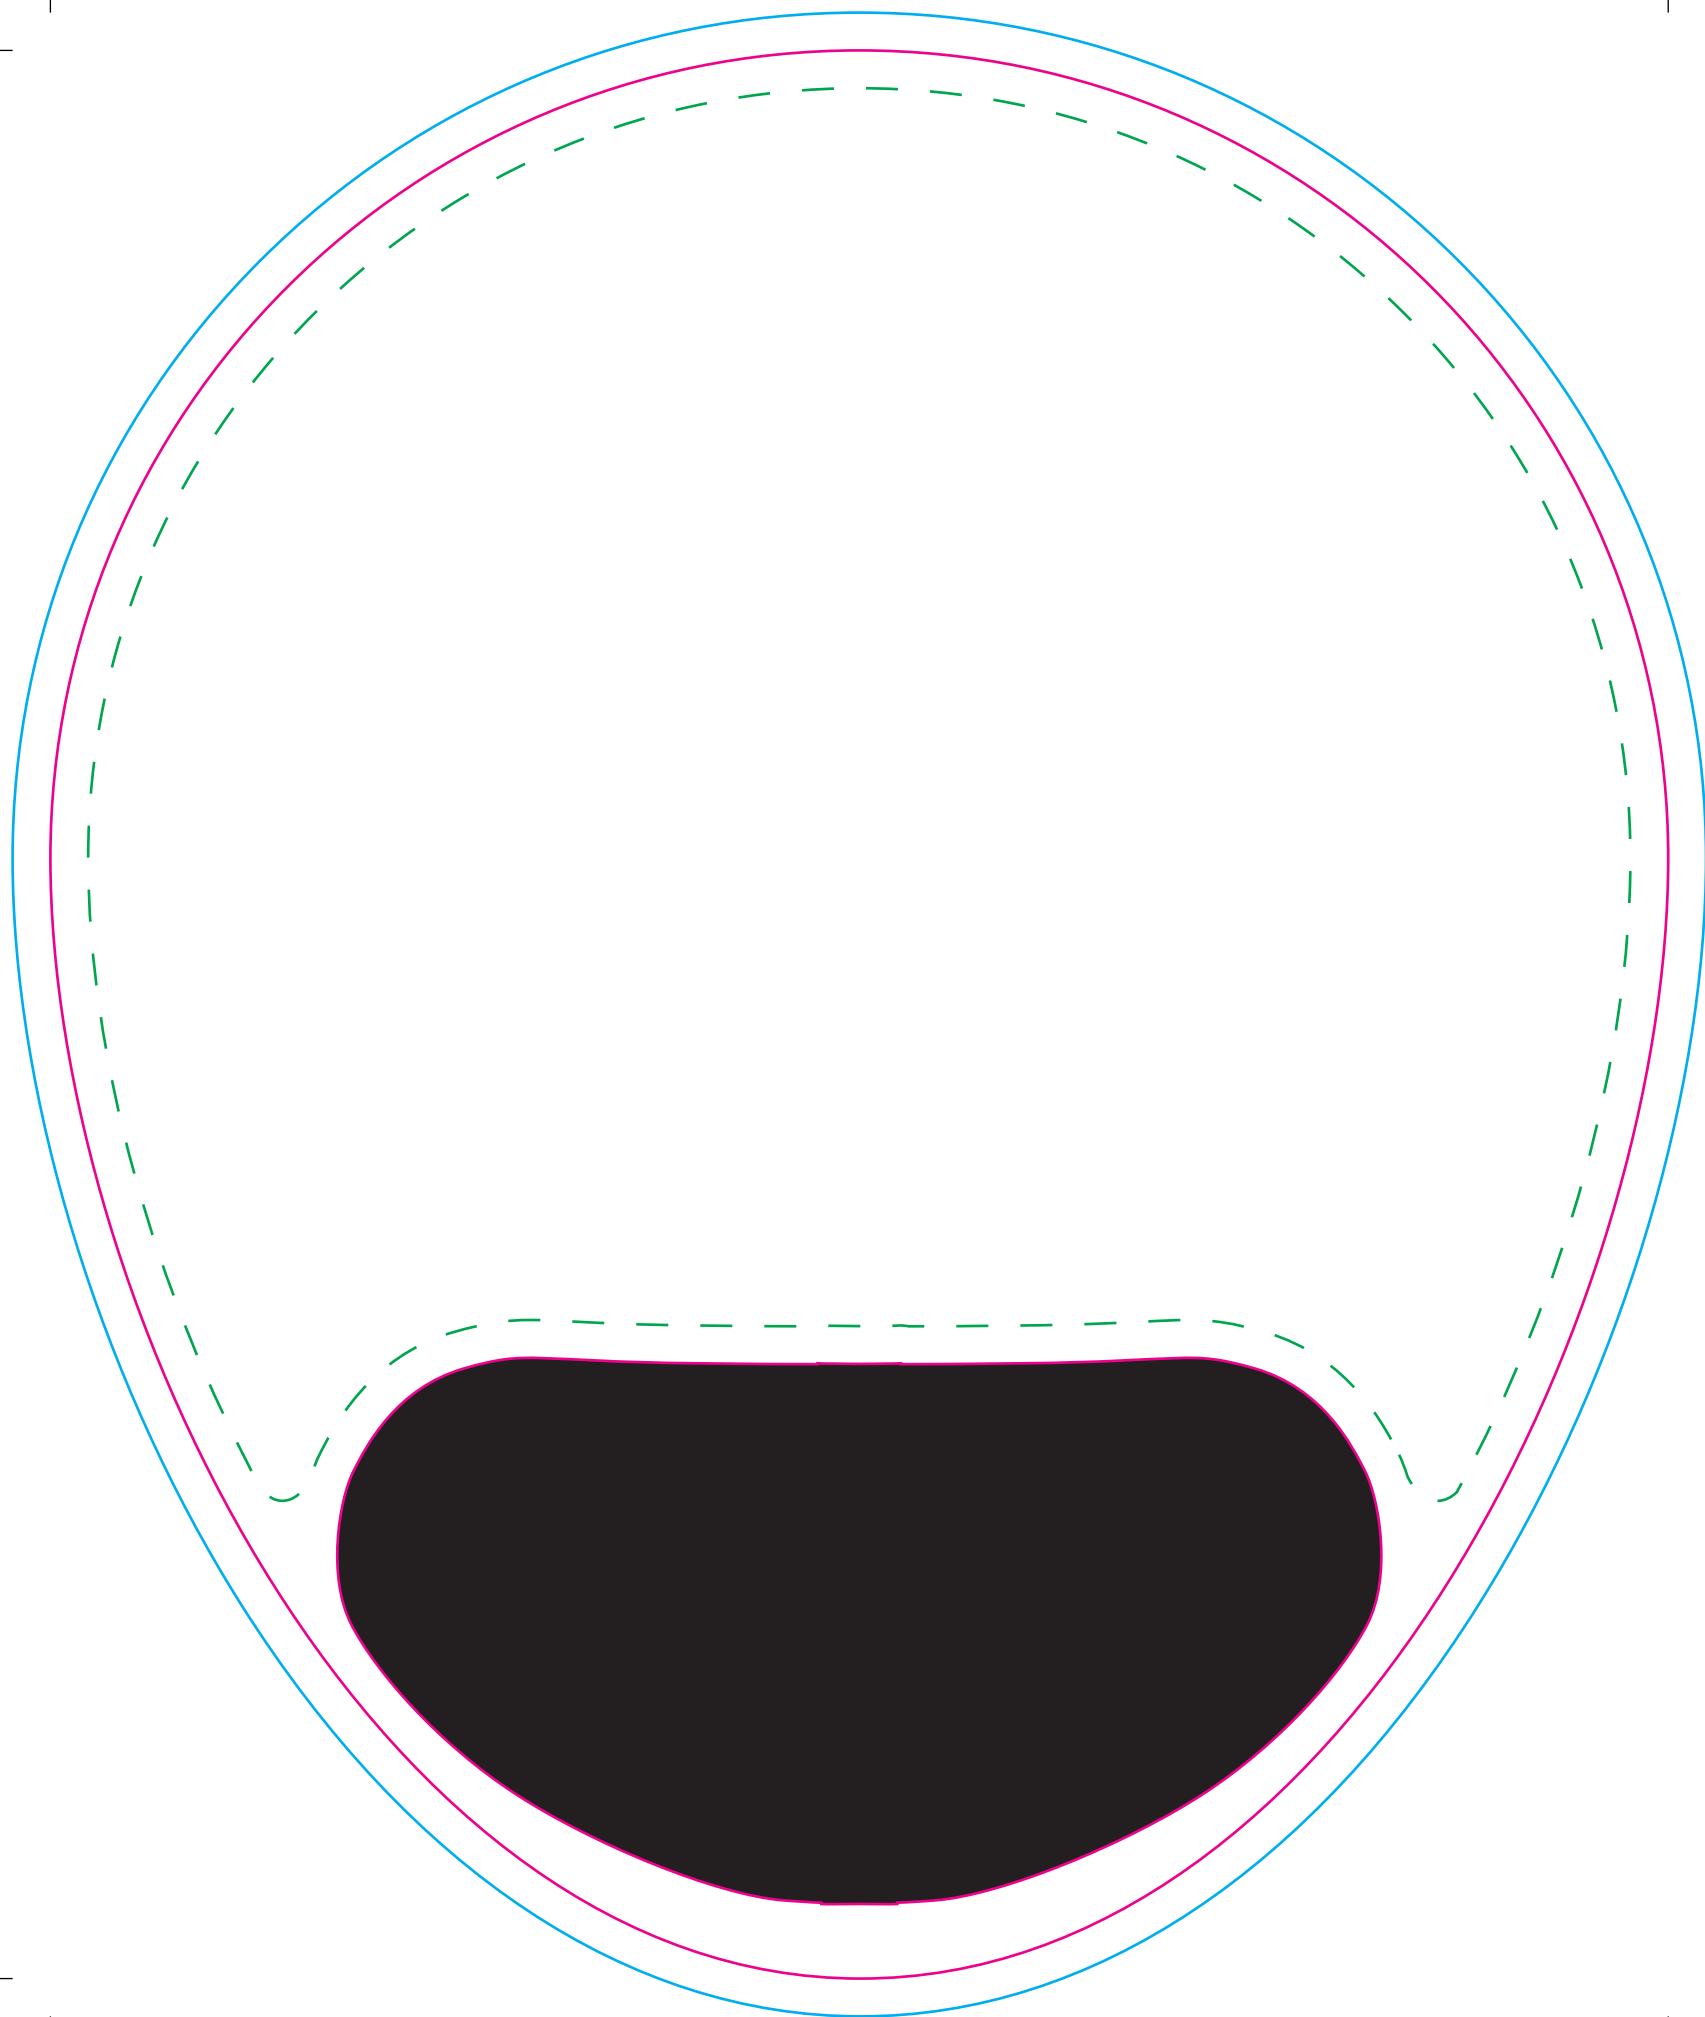

Scans: Low-resolution scans produce poor print. 600 dpi minimum for best results. Ensure scans have no colour cast. The print process will exaggerate the slightest contamination.

Colour Matching: There is a colour shift when the inks are vapourised so exact colour matching is difficult and not always possible. If it is critical to match accurately a particular colour in your design, it should be separated out as a special. Please note that the range of base colours available for dye sublimation printing by offset litho is limited and some colour matches are not possible.

QR Codes - Please note that the print process and substrates used in the production of this item may not always allow QR codes, if present on your artwork, to function correctly. When approving your proof, you are accepting that this may be the case and as such accept full liability for any malfunction of the QR code.

See the following page(s) for the artwork templates for this product.

All information correct at time of publication. Whilst we endeavour to maintain the accuracy of this document, details may change without notice.
